SUSAN MASHEVICH

FULL STACK WEB DEVELOPER

susanmash.github.io | smashevich@gmail.com | (323) - 405-2215

Profile

Full stack web developer, skilled in building websites and applications from the ground up to deployment. Enthusiastic and fast learner with solid knowledge of programming fundamentals, interested in collaborating with awesome people to create great products & solutions.

Skills

Interface & Web Design

Create interactive and mindful interfaces, while staying up to date on the latest design tools and trends.

Front-end Development

Proven ability utilizing front-end frameworks and libraries to enhance interface functionality, efficiently implement various rendering methods to display back-end data as well as integrate or create REST APIs with JSON/XML data.

Back-end Development

Well-versed in fundamental programming language concepts, MVC architecture, database modeling & creation. Including but not limited to, core business logic (CRUD) functionalities, complex queries & data associations, data validation and user authentication.

Technical

- HTML, CSS, JavaScript, jQuery, AJAX, Git
- Python with Flask, Django
- Ruby on Rails
- AngularJS, ExpressJS, NodeJS
- MySQL, MongoDB, PostgreSQL
- AWS/Amazon EC2 Instances, Heroku, GitHub

Experience

Freelance Web Developer, 2017 – Present

Provide services ranging from creating UI/UX designs, debugging or creating application's back-end functionality, integrating or creating REST Web API services, as well as taking on long-term projects to build, deploy & provide maintenance on client's websites or web applications.

Coding Dojo
Resident Full Stack Developer, 2016-2017

Successfully fulfilled TA requirements and interview, receiving positive reviews and support from program instructors. Worked with teams to find solutions to daily JavaScript algorithm problems posed to us. Learned and built web applications across 3 full language and technology stacks in a fast-paced environment.

WCH Group, Inc.
Sales, Product Merchandising & EDI Coordinator, 2014 - 2016

Trained all new employees and temp workers on EDI document & order processing procedures. Provided daily assistance and support to company's CEO (also, Head of Sales) as well as to the Merchandising and Production department manager. Quickly learned and exceeded training knowledge of company's SAP ERP system and integrated EDI technologies, furthering progress of previously established reporting capabilities by independently learning & utilizing SAP Crystal Report software to create automated custom reports and then integrated them into the company's system.

The Dependable Companies - DDC
Business Customer Accounts Representative, 2012 - 2014

Daily maintenance and support contact for some of the company's largest business accounts. Provided project specifications and instructions to warehouse on multi-store distribution order fulfillment requirements, product and packaging QC inspections & inventory audits.

Lucas Design Intl.
Sales & Production Assistant/ Account Manager, 2012 - 2014

Corresponded daily with sales reps and buyers from supply chain partners. Created product presentation materials and displays for various events, meetings and tradeshows. Managed new overseas factory production life cycles. Assisted designers on packaging design revisions (personally, editing designs in Photoshop when needed), product specifications and requirements, performing QA analysis & QC inspections of production samples.
